In today's fast-paced world, we find ourselves enclosed within four walls, living under a single air conditioner, disconnected from nature and simplicity. That's why we've come forward with a unique concept —A Big Space and a Small House — to revive the warmth and wisdom of our olden days.

RECOLLECT OUR CHILDHOOD MEMORIES:

- Sleeping under the stars
- Sharing stories by the moonlight
- Listening to the sounds of nature
- Teaching our children the joy of outdoor living

This is not just a place — it's a movement to reconnect with our roots, a space where our culture meets comfort, and where every night becomes a magical memory.

Let's give the next generation a taste of the life we cherished — simple, soulful, and full of stars.
